

Changing the Report Logo

Use the F1 button on any page of a ThinManager wizard to launch Help for that page.

Visit <u>www.thinmanager.com/TechNotes4/01_Intro/Manuals.shtml</u> to download the manual, manual chapters, or the abridged ThinManual.

Reports run in ThinManager will display the ACP ThinManager 4 logo by default. You can change the logo to your corporate logo to customize the report.

To do this:.

- 1. Create a copy of the desired logo in *.jpg format with a size of 150x50 pixels. A white background is helpful if the logo is irregularly shaped.
- 2. Name the file logo150x50.jpg.
- 3. Copy the logo150x50.jpg into the ThinManager folder (*C:\Program Files\Automation Control Products\ThinManager\Reports* by default).
- 4. Open the report to see the change.
