

ThinManager Trialware

Use the **F1** button on any page of a ThinManager wizard to launch Help for that page.

Visit www.thinmanager.com/TechNotes/Intro/Manuals.shtml to download the full Manual or the ThinManual.

ACP has a demonstration version of ThinManager that provides customers with a 30-day trial. This version is downloaded from the ThinManager web site (www.thinmanager.com) as a self-extracting file.

Trialware Download at ThinManager Web Site

The ThinManager Trialware has a few things to consider:

- A user must register on the ThinManager web site to access the download. This is an independent login from the license site.
- The software must be installed on a computer that hasn't had ThinManager installed before.
- The software can be installed on a workstation or a terminal server. Be sure to install in the Install Mode by using the *Add and Remove Programs* if the Trialware is installed on a terminal server.
- The software doesn't need license activation and will provide licenses for 30 days.
- The Trialware version doesn't accept normal ThinManager licenses and needs to be replaced with the standard ThinManager version to become a regularly licensed program.

Trialware Download is available at www.thinmanager.com.
