Automation Control Products

ThinManager 5.0 Help Manual

By the ACP Technical Staff

July 1, 2011

Atlanta, Georgia, USA

Contents

1 Introduction 11

1.1 Documentation Contents 11
1.2 ACP ThinManager 5.0 12
1.3 What is New in ThinManager 5.0? 13
1.4 Evolution of ThinManager Terminology 13
1.4.1 Essential ThinManager Functionality 13
1.4.2 The Client/Server Relationship in Terminal Services 13
1.4.3 Hardware Configuration Tool 14
1.4.4 Wizards 15
1.4.5 Terminal Server Groups 16
1.4.6 Application Groups 17
1.4.7 Display Servers and Display Clients 18

2 System Overview 21

2.1 Quick Start Checklist 21
2.2 Required Components 22
2.2.1 Windows Terminal Server Operating System 22
2.2.2 Client Communication Protocol 22
2.2.3 ThinManager Administrative Software 22
2.2.4 ThinManager Ready Thin Client Hardware 23
2.3 Connection Overview 24
2.4 Failover Overview 24
2.5 MultiSession Overview 26
2.6 MultiMonitor Overview 27
2.7 TermSecure Overview 27
2.8 PXE Boot Overview 27

3 Installation of ThinManager 28

3.1 Standard ThinManager Installation 28
3.1.1 Windows Server 2003 28
3.1.2 Windows Server 2008 37
3.2 WinTMC Installation 37

4 Licensing ThinManager 45

4.1 ThinManager Licensing 45
4.1.1 Standard Licensing 45
4.1.2 XLi Licensing 46
4.1.3 Master License Advantages 46
4.2 License Activation 46
4.3 Adding a Master License to ThinManager 64
4.3.1 Delete License 66
4.3.2 License Details 67
4.3.3 Install Demo Code 67

4.3.4 Show Old Licenses 68
4.4 WinTMC Licenses 68
4.5 TermSecure Licenses 68
4.6 Upgrading to ThinManager 5 from Older ThinManager versions 69

5 Redundant ThinManager Servers 71

5.1 Redundancy Overview 71
5.1.1 Redundancy Differences 72
5.2 Creating a Redundant Pair of ThinManager Servers 72
5.3 Creating Mirrored Redundancy 73

6 ThinManager Interface 75

6.1 Opening ThinManager 75
6.2 ThinManager Graphic User Interface 76
6.3 Tree Pane 77
6.4 Icons 78
6.4.1 Tree Icons 78
6.5 Details Pane 86
6.5.1 ThinManager Server Detail Tabs 86
6.5.2 Terminal Group Detail Tabs 88
6.5.3 Terminal Detail Tabs 89
6.5.4 Terminal Server Detail Tabs 90
6.5.5 Modifying a Terminal 92
6.5.6 Deleting a Terminal 93
6.5.7 Restarting a Terminal 93
6.5.8 Rebooting a Terminal 93
6.5.9 Renaming a Terminal 93

7 Menu Items 95

7.1 Edit 95
7.1.1 Add Terminal 95
7.1.2 Add Terminal Group 95
7.1.3 Add ThinManager Server 95
7.1.4 Remove ThinManager Server 97
7.1.5 Delete 97
7.1.6 Modify 98
7.1.7 Rename 98
7.1.8 Lock 98
7.1.9 Unlock 98
7.1.10 Find 99
7.1.11 Find Next 100
7.2 Manage 100
7.2.1 ThinManager Server List 100
7.2.2 TermSecure Access Groups 100
7.2.3 DNS Configuration 101
7.2.4 PXE Server 101
7.2.5 Configure Default Terminal 101
7.2.6 Restore Configuration 102
7.2.7 Backup Configuration 103
7.2.8 Synchronize Configuration 103
7.2.9 Reconnect 103
7.2.10 Disconnect 103
7.3 Install 104
7.3.1 Licenses 104

7.3.2 Modules 105
7.3.3 Reports (Installation) 106
7.3.4 Firmware 109
7.3.5 TermCap Database 109
7.3.6 PXE Boot Loader 111
7.4 Tools 111
7.4.1 Restart Terminals 111
7.4.2 Reboot Terminals 112
7.4.3 Reboot Terminal Server 112
7.4.4 Disable Terminals 112
7.4.5 Enable Terminals 114
7.4.6 Disable Terminal Server 114
7.4.7 Enable Terminal Server 114
7.4.8 Calibrate Touch Screen 114
7.4.9 Send Message 115
7.4.10 Clear Event Log 116
7.5 View 116
7.5.1 Status Bar 116
7.5.2 Show Connected Only 116
7.5.3 Reports (Selection) 117
7.5.4 Print 118
7.5.5 Options 119
7.6 RemoteView 119
7.6.1 Interactive Shadow 119
7.6.2 Scaled to Window 120
7.6.3 Go FullScreen 120
7.6.4 Connect Options 120
7.6.5 Send Key 121
7.7 Help 121
7.7.1 Help Topics 121
7.7.2 About ThinManager 121
7.8 Right Click Menus in the Tree Pane 122
7.8.1 Right Click on the ThinManager Server Icon 122
7.8.2 Right Click on the Terminals Branch Icon 122
7.8.3 Right Click on a Terminal Group Icon 122
7.8.4 Right Click on a Terminal Icon 123
7.8.5 Right Click on the Display Servers Terminal Servers Branch Icon 123
7.8.6 Right Click on a Terminal Server Icon 123
7.8.7 Right Click on the VCenter Servers Branch Icon 124
7.8.8 Right Click on the Display Client Branch Icon 124
7.8.9 Right Click on a Display Client Member Icon 124
7.8.10 Right Click on the TermSecure Users Branch 126
7.8.11 Right Click on a TermSecure Users Group Icon 126
7.8.12 Right Click on a TermSecure Users Icon 126

8 Adding Thin Client Hardware 127

8.1 The Boot Process 127
8.2 IP Address Assignment 128
8.2.1 DHCP 128
8.2.2 Static IP 130
8.2.3 Hybrid IP Addressing 132
8.3 Configuring New Hardware 133
8.4 Create New Terminal Mode 133
8.5 Replace or Create New Terminal Mode 134
8.6 Auto-Creation of Terminals 134

8.6.1 Enabling AutoCreate 134
8.6.2 Configuring Default Terminal....136

9 Configuration Wizards 139

9.1 Introduction to Wizards 139
9.1.1 List Wizards 140
9.1.2 Configuration Wizards 140
9.2 ThinManager Server List....142
9.2.2 Automatic Synchronization....144
9.2.3 Defining ThinManager Servers for Manual Synchronization....148
9.2.4 Manual Synchronization 150
9.3 ThinManager Server Configuration Wizard 154
9.4 DNS Configuration 173

10 Terminal Configuration 177

10.1 Terminal Configuration Wizard 177
10.1.2 Terminals Using Individual Terminal Servers....186
10.1.3 Terminals Using Display Clients....190
10.1.4 Display Client Selection....191
10.1.5 Continuation of the Terminal Configuration....200

11 PXE Server Configuration 214

11.1 Overview 214
11.2 Thin Client Hardware Requirements....214
11.3 Methods of Operation 214
11.3.1 ThinManager Only Method 214
11.3.2 ThinManager Proxy Method 214
11.3.3 Stand-Alone DHCP Server Method....214
11.4 PXE Server Configuration Wizard 215
11.4.1 Enabling the ThinManager PXE Server 215
11.4.2 Network Interface Configuration....216
11.4.3 Network Interface Configuration for Synchronized ThinManager Servers 217
11.4.4 IP Address Range Configuration....218
11.4.5 Exclusions....220
11.4.6 Reservations....221
11.5 Terminal Group Configuration Wizard 223
11.5.2 Changing a Terminal's Group....227
11.5.3 Unique Group Configurations....231

12 Display Servers 235

12.1 Terminal Services Display Servers....235
12.2 Camera Configuration Wizard....244
12.2.2 IP Camera Group Configuration....248
12.2.3 IP Camera Administration....250

13 Display Clients 251

13.1 Display Client List 251
13.2 Terminal Services Display Clients 253
13.3 Camera Display Clients 264
13.3.2 Adding a Camera Overlay to a Display Client....276
13.3.3 Camera Overlays and TermMon ActiveX Control 279

13.4 Terminal Shadow Display Clients 280

14 Failover and Instant Failover 287

14.1 Failover Introduction 287
14.2 Failover 287
14.2.1 Failover Setup For a Terminal Using Terminal Services Display Clients 289
14.3 Instant Failover 292
14.4 Instant Failover Configuration 295
14.4.1 Instant Failover Setup using Terminal Services Display Clients ...295
14.4.2 Switching Between Instant Failover Sessions 297
14.4.3 Switching Between Sessions with Display Clients 297
14.4.4 Instant Failover Tree Icons 299

15 Modules 301

15.1 Module Overview 301
15.1.1 Module List 301
15.2 Installing a Module 304
15.3 Adding a Module to a Group or Terminal 307
15.4 Changing Module Parameters 310
15.5 Individual Module Details 313
15.6 ICA Modules 313
15.6.1 Citrix ICA UseAlternateAddress Module 313
15.6.2 Citrix ICA wfclient.ini Extension Module 314
15.7 Keyboard Modules 314
15.7.1 Key Block Module 314
15.7.2 Key Block Single Key Module 314
15.7.3 Keyboard Configuration Module 315
15.8 Local Storage Modules 316
15.8.1 USB Flash Drive Module 316
15.8.2 USB Memory Card Reader Module 317
15.9 Miscellaneous Modules 317
15.9.1 Add Serial Port 317
15.9.2 Firmware Update (Disk On Chip / Compact Flash) Update Module 317
15.9.3 Local Print Module 319
15.9.4 MultiMonitor Module 322
15.9.5 Redundant Ethernet Module 323
15.9.6 Second Network Module 323
15.9.7 Terminal Shadow Module 324
15.9.8 TermMon ActiveX Configuration Module 324
15.9.9 Terminal Shadow Module 324
15.9.10 Time Zone Redirection Module 324
15.9.11 User Override Module 325
15.10 Mouse Modules 326
15.10.1 Mouse Configuration Module 326
15.10.2 PS/2 Mouse Module 327
15.10.3 Serial Mouse Driver 327
15.10.4 Share Keyboard and Mouse Modules 327
15.11 RDP Modules 330
15.11.1 RDP Experience Module 330
15.11.2 RDP Module for ThinManager v2.4 and Older 332
15.11.3 RDP Port Module 332
15.11.4 RDP Serial Port Redirection Module 333
15.11.5 RDP Session IP Module 335

15.12 Screen Saver Modules 336
15.12.1 MultiSession Screen Saver Module 336
15.12.2 Screen Saver Module 337
15.13 Sound Modules 339
15.14 TermSecure Modules 340
15.14.1 RF Ideas pcProx Module 340
15.14.2 RF Ideas pcProx USB Module 341
15.14.3 TermMon ActiveX Configuration 342
15.14.4 USB Flash Drive Module 343
15.14.5 Wavetrend Tag Reader 343
15.15 Touch Screen Modules 344
15.15.1 USB Touch Screen Driver Module 346
15.16 Video Driver Modules 347
15.17 Advanced Modules 347
15.17.1 ICA Client Version 6.0/ ICA Client Version 8.0 347
15.17.2 Instant Failover Module 348

16 Citrix ICA 351

16.1 Terminals Using Display Clients with ICA 351
16.2 Display Client Configuration Wizard 352
16.2.2 Terminal Using Citrix and Individual Terminal Servers 354

17 Hotkeys 357

17.1 Terminal Configuration Wizard Hotkeys Display Clients 357

18 Multiple Monitors 367

18.1 Introduction to Multiple Monitors 367
18.2 Share Keyboard and Mouse Modules 367
18.3 MultiMonitor 370

19 Virtualization in ThinManager 385

19.1 Virtualization Overview 385
19.2 VCenter Servers 385
19.2.2 VCenter Server Right-Click Menus 390
19.3 Virtual Terminal Servers 393
19.4 Virtual Workstations 396
19.4.1 Workstation Display Clients 396
19.4.2 Terminals and Virtual Workstations 400

20 Scheduling 407

20.1 Terminal Schedule 407
20.2 Terminal Server Schedule 411
20.3 ThinManager Server Schedule 414
20.4 TermSecure User Schedule 419

21 Reports 422

21.1 Reports 422
21.2 Report Template Installation 422
21.3 Selecting Reports 424
21.4 Report Tab 425
21.5 Print Report 426

21.6 Scheduling Reports....427
21.7 Changing the Report Logo....433

22 WinTMC Fat Client 435

22.1 WinTMC Overview....435
22.2 Local WinTMC Configuration....435
22.3 WinTMC Configuration in ThinManager....438
22.3.2 MultiMonitor WinTMC....442
22.3.3 WinTMC Modules....442
22.3.4 WinTMC Licensing....443

23 Shadowing 445

23.1 ThinManager Shadow....445
23.1.1 Shadow Access....446
23.1.2 Configure Shadowing....447
23.1.3 Shadow Keystrokes....448
23.1.4 Terminal-to-Terminal Shadowing....448

24 ThinManager Security 455

24.1 ThinManager Security Groups....455
24.2 ThinManager Server Security....458
24.2.1 Windows Security....460

25 TermSecure 462

25.1 TermSecure Overview....462
25.2 Users Types....462
25.2.1 Windows Users....463
25.2.2 TermSecure Users....463
25.2.3 ThinManager Security Group Users....463
25.3 Deploying TermSecure....463

26 Permissions 465

26.1 Creating Permissions Groups....465
26.2 Permission Groups for Terminals....467
26.3 Permission Groups for Display Clients....469
26.4 Permission Groups for TermSecure Users....471
26.5 Shortcut Method of Adding TermSecure Access Groups....477
26.6 TermSecure User Configuration Wizard....481
26.7 TermSecure Users Group Configuration Wizard....497
26.8 Adding a TermSecure User to the TermSecure User Group....500
26.9 TermSecure Login....504
26.9.1 Logging Out....506
26.10 TermSecure Menu....507
26.11 Card and Badge Configuration for a TermSecure User....512
26.11.1 Automatic Card/Badge ID Number Entry....513
26.11.2 Manual Card/Badge ID Number Entry....519

27 TermMon ActiveX Control 525

27.1 Registering the Control....525
27.2 Using the Control....525
27.2.1 TermMon ActiveX Configuration Module....525

27.2.2 Read-Only Properties 525
27.2.3 Read-Write Properties 526
27.2.4 Events 526
27.2.5 Methods 527
27.2.6 Control Constants 531
27.3 TermMon ActiveX Demo Application 532

28 Non-ThinManager Components 535

28.1 Server 2003 535
28.1.1 Installing Terminal Services 535
28.2 Creating Microsoft User Profiles 537
28.3 Software Installation On Windows 2003 539
28.3.1 Terminal Services Configuration 543
28.3.2 Terminal Services Connections 543
28.3.3 Terminal Services Connections 550
28.3.4 Licensing Mode 550
28.3.5 Permission Compatibility 551
28.3.6 Restrict Each User to a Single Session 552
28.3.7 License Server Discovery Mode 552
28.4 Windows 2008 Server 553
28.4.1 Adding Terminal Server Role 553
28.4.2 Adding Applications in Windows 2008 559
28.4.3 Create Users 559
28.4.4 Allowing Application Access 560
28.4.5 Installing ThinManager 563
28.4.6 Allow Inbound Traffic to Firewall 565
28.4.7 Local Security Policy – User Access Controls 573
28.5 Command Prompt 574
28.6 Alternative Terminal Keystrokes 575
28.7 DHCP Server Setup 576
28.8 Group Policy 577
28.9 Microsoft Licenses 578
28.9.1 Microsoft Client Access Licenses (CALs) 578
28.9.2 Microsoft Terminal Server Licenses 579
28.9.3 Microsoft Terminal Server Licensing Activation 579

29 ThinManager Troubleshooting Guide 581

29.1 Section 1 - From Power on to Terminal Server Login 581
29.2 Section 2 - Thin Client is Booted, Connected, and Running a Session on the Terminal Server 584

30 Glossary of Terms 587

31 Index 592
